

# LOGODAJ *Winery*

## Melnik Brut

**Origin:** Struma valley

**Harvest:** 2011

**Grape Variety:** Broad Leaved Melnik Vine

**Alcohol:** 12.5%

**History & Winemaking:** This Melnik Brut is made from the indigenous ancient Bulgarian grape variety Broad Leaved Melnik Vine found predominantly in South-West Bulgaria. Its good balance between sugars and acidity makes it the perfect choice for the production of traditional method sparkling wine.

**Description:** The grapes were picked manually at the beginning of October and gently pressed with 45% yield. The fermentation is carried in stainless still vat under controlled temperature. Following the traditional method the second fermentation is carried in the bottle and the wine is aged on the lees for 24 months before release. The colour is golden yellow with fine and elegant persistent mousse. Fresh nose of spring flowers and cookies leads to a clean and crisp complex palate and a long persistent finish.

**Food recommendation:**

**Recommended serving temperature:** Serve at 4 – 6°C.
